<b>Office Action Summary</b>	<b>Application No.</b> 10/565,729	<b>Applicant(s)</b> GRANT, JON	
	<b>Examiner</b> Corey N. Skurdal	<b>Art Unit</b> 3782	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Priority***

1. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Great Britain on 7/25/2003. It is noted, however, that applicant has not filed a certified copy of the GB 0317460.4 application as required by 35 U.S.C. 119(b).

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 3-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 3, line 2, it is unclear what "it" is. Claim 4 recites the limitation "the sealed end" in line 2/3. There is insufficient antecedent basis for this limitation in the claim. Claim 5 – it is unclear what the metes and bounds of the claimed portable flexible carrier are. As such, it will be treated as including the elements of claims 1-4.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States

only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 1-2 are rejected under 35 U.S.C. 102(e) as being anticipated by Hall et al. (US 2002/0179647).

Hall discloses a portable flexible carrier 110 comprising: an inner flexible fluid container 520 entirely encase within an outer separable cover 510, the outer cover being produced from a chemically hardened fluorinated polymer material (paragraph 30); a drinking tube 130 connected to an opening of the container, and wherein the tube is formed such that a conduit layer is defined along the entire length of the tube, the conduit layer also being made from a fluorinated polymer (paragraph 31, lines 11-13); an on/off valve 150 on the tube for controlling the fluid flow; and a means 120/122 for selectively sealing the cover interior and its contents from the atmosphere.

Regarding claim 2, the outer cover is composed of a multi-layer material having a fabric support (paragraph 30, line 11) that is covered by a protective complex (e.g. fluorinated rubber, paragraph 30, lines 13-15).

***Claim Rejections - 35 USC § 103***

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 3-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hall et al. in view of Fawcett (US 5,803,333). Hall et al. discloses the claimed invention but does not have shoulder straps or a sealable flap. However, Fawcett teaches a pouch 10

Art Unit: 3782

for carrying a bladder 48 similar to that of Hall et al., and wherein the pouch includes shoulder straps 46, and a selectively sealable flap 20 to overlie a sealed end of the pouch. It would have been obvious to one skilled in the art at the time of invention to carry the bladder of Hall et al. in the Fawcett device in order to provide easy transportation.

### ***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
